

Our purpose:

You're invited to participate in our video campaign by describing how the arts impact your work. Together, we aim to raise awareness and support for STEAM education* by creating an interactive video series about how the arts impacts our careers and studies.

Who can participate?:

Professionals of all disciplines can describe how their work benefits from arts integration. This means we hope to hear from teachers, in addition to professionals in STEM and other careers.

How can you participate?:

Simply use your phone camera or recording device to capture a 1-2 minute video answering *any or all* of the applicable questions below.

Questions to help you craft your video:

1. What is your name, profession and location?
2. What do you know about STEAM Education?
3. In what ways do the arts relate to your work? OR How have you incorporated the arts into your lessons or work?
4. Why/how do you think arts integration is useful to students or professionals?
5. Any tips for successful arts integration?

Where to submit?:

You can email, wetransfer, or yousendit to jrevesteam@gmail.com.

By submitting your video, you grant us permission to publish and use it in [J Reve International](#) programming.

Tips for recording:

1. Ideally, choose a setting that relates to your work or discussion.
2. Minimize or eliminate background noise.
3. Select good lighting, either natural or artificial.
4. Take your time and have fun sharing your ideas. THANK YOU!

*STEAM = STEM +Arts
